A Legacy to the Nation - Arboretum

The John Anderson Arboretum on Chamberlain Road, just out of Albury, a privately owned 6 hectare arboretum, was established by the late forester and naturalist John Anderson.

The late John Anderson was a tree lover and during his travels overseas he was always on the lookout for new specimens that he hoped may take root back home at Glendonald. He nurtured the seeds in his nursery until ready to plant out in a block on Glendonald and on another at Deepdale.

It all began as a private venture and 20 years later the Arboretum was opened to the public in November 1998 and the Queen Elizabeth 11 National Trust granted an open space protective covenant over the collection. This gives protection in perpetuity.

The first plantings were in 1980 at 'Deepdale' on Coalpit Road, Albury. Four years later planting began in the 'Glendonald' block on Chamberlain Road. John Anderson wanted to provide a seed source of different species so he planted on two separate parts of the farm both with different microclimates.

The Arboretum is a 'Legacy to the Nation' and is a fine collection of rare conifers. The Arboretum has about 200 different species with many of the trees being the only specimens in the Southern Hemisphere.

As the trees have developed over this time so too has scrub infestation, coupled with the loss of some identifying tags. Funding to keep the areas in the manner that John Anderson would have wished can be an issue, so Fairlie Lions considered how they could assist. No better way than a golf match at the local course and donate the earnings to this cause.

The trees that have lost labels will undergo DNA sampling to ascertain their species and will then get new identifying tags.

These two areas are dedicated to John Anderson - family man, farmer, explorer, hunter, author, conservationist.

The guardians are Bill and Di Anderson. There is no charge to enter the Arboretum and they are only too happy for people to wander at their leisure. The Arboretum is certainly a labour of love and they are happy to share with the wider community what John started many years ago.

Russell Halket (Fairlie Lions President) handing over of \$2,000 towards the upkeep of the Anderson Arboretum at Albury to Bill Anderson. These proceeds were from the recent Lion's Charity Golf Match held at Mt Nissing.

The 'new' Vicarage was dedicated on this day 18th May 1957 by Alwyn Christchurch. All South Canterbury clergy attended the occasion. The 'new' Vicarage was built on the site of the original vicarage which was given by Mrs T R Seddon of Ashwick in 1906.

What's Happening?

Caravans 2 - The Trailer

Despite the challenges of COVID, rehearsals have been able to continue. The show, as they say, must go on! We're less than a week from opening night on 21 May, and an additional performance has been added as a result of the exceptional demand for tickets. A few performances are completely sold out but there are plenty of tickets available for **Tuesday 24th May**.

A reminder that the bar opens an hour before the show at 6.00 pm each night, ready for 'curtain up' at 7.00 pm (5.30 pm for 6.00 pm start on Sunday) – why not come a little early and enjoy our signature cocktail?

Writers John Mawson and Rob Smith have cleverly written the script so the show makes total sense if you haven't seen the original Caravans. For those of you who have, here's a short synopsis to remind you of last year's antics!

"Caravans" took place at the Kaiteriteri Haven Holiday Park where Laurie McGuire and his wife Joan, were camping with Joan's sister Heather and her husband Gunter. There was no love lost between Gunter and Laurie, who both fancied themselves attractive to any women who crossed their paths. There was also resentment of Ivy, Joan and Heather's demented mother who lived with Heather and Gunter, and a total dislike of Reg, the caravan park manager. In the course of a boozy evening, Laurie invited most of the caravan park residents to a barbecue that he hosted, much to the chagrin of Joan who knew who all the work would be left to...

Complications began to arise when a new van arrived in the night next to Laurie's site. The van was home to Australian backpacker, Carol, and her Norwegian friend Eva. Laurie and Gunter went to extraordinary lengths to impress the girls whose liberated attitudes make Laurie and Gunter all the keener. In the meantime, Joan received word that their son Kenneth had met a girl overseas and planned to marry her when they meet up again at the caravan park.

Kenneth's fiancée's name was Carol, and the coincidental name caused no alarm until Laurie met Fern, the mother of the Carol in the van next door. Laurie realised he had a brief relationship with her nine months before Carol was born, and convinced himself that not only was he the father of this Carol, but she must also be the Carol that is about to marry his son Kenneth! Something had to be done to prevent Kenneth marrying his half sister!

We watched the hapless Laurie try, and fail, to find a way out of this dilemma, to hilarious effect. At the end we learned from Joan that it didn't matter that Laurie might be Carol's father, because Laurie isn't Kenneth's biological father. In a final cruel twist, Laurie discovered there were in fact two Carols, and all the trouble caused had been for nothing!

30 free hours for children over 3 years.
Spaces available for children 2 years and over.
Enquiries welcome now.

Local Legend Brought to Life

Fairlie Area Kindergarten hosted Rachel and Donna from Te Ana Rock Art Centre recently.

They performed a legend of how Maui trapped the Tuna (eel). The use of props that tamariki (children) enjoyed interacting with brought the story to life. Following the performance tamariki used clay to recreate and retell the story in their own words. Knowing local stories is a great way to gain new language, connect to history and gain identity and relationship to the land. It was lovely to have experts enrich our learning journey.

MACKENZIE COLLEGE
ARA O TE TIKA - THE PATHWAY TO WISDOM

Open Day

Tuesday 24th May

Tour our amazing school in action:

9:15am ▲ 11:35am ▲ 2:20pm

Multiple Leadership Opportunities | Large Teacher to Student Ratio

Diverse Learning Experiences | Individualised Learning Plans | Quality Staff

Extraordinary Academic Achievement | Active and Engaged Students

Mackenzie College

Mackenzie College students have been busy in Term 1 with a range of exciting events such as yachting, Coast to Coast, peer support, swimming sports, athletics, film making, computer animation, engineering challenges, surf kayaking, Pi week (Maths), Bio camp, triathlons, horse-riding event, culinary challenges and mountain biking. It was a somewhat quiet term due to Covid restrictions.

This term we welcomed two new staff members and their whānau to our school (pictured at right). Ethan Smith has taken over the deputy principal role full time in Term 2. He joins the SLT team and the Social Studies department, fresh from Linwood College. Steve Onyett has moved down from the far north to bring his extensive outdoor education skills and training to our Physical Education and Health department. A big "Nau mai, haere mai!" to both.

We have a number of events on this term but keep an eye out for our upcoming Open Day on the 24th of May. For more information on upcoming events see our school website's calendar.

Fairlie Accessible Issue 22-10

College Prom

The Mackenzie College Prom is being held in the Mackenzie Community Centre on 3rd June 2022. The theme for this year's prom is "Summer Holiday!". We would love to invite the community to come along and watch the students walk-in from the Community Centre's back entrance on Gall Street from 6.30-7 pm.

Smith family

Onyett family

Fairlie Primary School

Year 6 Leadership Day

On Friday 6 May, Fairlie Primary School hosted a day for Year 6 students from our Mackenzie Schools with a focus on leadership.

The students heard from inspirational speaker, Josh South, first. He spoke to them about his journey as a young person battling cancer, losing a leg and then going on to represent New Zealand in swimming. A big part of Josh's message to the students was about having the right attitude and being resilient.

Mackenzie College's head students and a deputy head student spoke as well. They shared their own leadership journeys and then answered a range of questions from the students about high school and leadership.

Students also participated in two workshops during the day that worked on developing leadership skills such as teamwork, communication and problem solving.

It was a great experience for all of the students and an opportunity for them to connect with other students from different schools as well.

Coming Up at Fairlie Primary School:

- Wednesday 18 May - Year 5 and 6 Ripa Rugby Tournament in Timaru
- Friday 20 May - Chess Regionals at Waihi
- Tuesday 24 May - NZ Playhouse Performance
- Wednesday 1 June - Cross Country at Cannington School
- Friday 3 June - Mufti Day

Albury School

Year 6 Leadership Day at Fairlie Primary

Recently our Year 6 students attended a Leadership Day for the students from all the Mackenzie Schools including Albury, Cannington, Lake Tekapo, Fairlie Primary and St. Joseph's Fairlie. Thank you to Fairlie Primary School for hosting this event.

The students spend the day participating in fun and exciting activities around team building and communication and they got to listen to inspiring guest speakers about their experiences.

Daniel: "I loved making paper planes. I've still got mine and it still works." Olivia and Azayah enjoyed learning adventure-based learning skills. The games they learned were fun and the groups had to communicate well and work together as a team. Tilly's favourite activity was building a construction out of straws that needed to be able to hold up a tennis ball. Blake was inspired by the guest speakers from Mackenzie College, Amy, Sophie and Isaac, who were talking about their leadership journeys. The biggest impact on our students was guest speaker Josh South. Listening to him was also Hayley's favourite part of the day.

Our Albury Kids admired Josh's take on life, his humour and his attitude towards the challenges life has thrown at him. The message they took away was to always stay positive and never give up on your dreams.

The students had a fantastic day in Fairlie and will soon have the chance to further learn and develop their skills in an upcoming PAL's leadership workshop. We encourage them to put those skills into practice by taking on leadership roles at Albury School.

St Joseph's School

This term we have enjoyed welcoming visitors back on site, now that we are in the orange traffic light setting. This week we had a visit from Constable Deb for Road Safety Week. We started with sessions in the classroom with a recap of what pedestrians need to remember to keep them safe. Afterwards each class went for a walk around town to test the skills we had learnt.

We also welcomed Debbie back for Enviroschools and have started by looking at our waste and how we can manage this to reduce our waste. We are looking forward to working with Debbie throughout the term.

On Friday we finished the week with a zoom session with a New Zealand author named Helen Griffiths. She read her book *Treasure Beyond Measure, about an animal safari*. The children were captivated by her use of rhyming and the amazing illustrations of animals. We can't wait to get a copy of the book for our school library.

MACKENZIE COMMUNITY LIBRARY

Te Whare Pukapuka o Te Manahuna
Kirke St, Fairlie Ph: 03-685-8560

FREE Beginner Te Reo Course

Our up-coming 6-week Te Rēo course, starting on Thursday 16th June, is filling up fast, with 9 people signed up. We have arranged a tutor from Te Aitarakahi marae, in Timaru, to facilitate the course and the cost will be covered by the library's remaining Covid Community Funding. It will cover basic pronunciation, greetings, phrases, and some Māori customary practices or behaviours. Please contact Bron at the library if you are interested in taking part. Don't be shy – this course is for everybody! Get in touch to book your place today!!

Goodyarn/Wellbeing Workshops and Resources

The South Canterbury DHB and Mackenzie District Council are joining with the Good Programmes Trust to bring the free **Good Yarn** mental health literacy workshops to the Mackenzie region. They will be holding the Fairlie workshop on Monday 23rd May from 9 – 12. We have flyers at the library if you would like to learn more or you can register at <http://www.goodyarn.org/workshops/23rd-may-2022-fairlie/>

We are also planning a Men's Health & Social Evening, in partnership with the SCDHB team on Tuesday June 28th at the Golf Club, with some great speakers. Grab a mate and come along for a beer and a catchup. More details to follow.

The library now has some great 'Wellbeing' packs, which contain a wealth of information about mental health, wellbeing advice, stress management, local health services, and other helpful information. Grab one for your whānau or a friend on your next visit. You just never know what's going on for people, and it's so important to ask for help or provide a sympathetic ear to help someone find a way through. We also have a great range of books on maintaining your wellbeing, mindfulness, self-care, and mental health issues, as well as some great humorous light reads, as we could all do with a bit of a giggle!

Storytime at the Library

We are restarting our Storytime for the Under 5's on Thursdays – woohoo!!! Come to the library from 11.30 – 12 noon for stories, singing, and fun.

Keep safe out there! The Library Crew

SAVE SOIL---The Need To Halt Soil Degeneration

Most of us are familiar with words and concepts such as climate change, carbon emissions, air pollution and water scarcity. However, there has been little attention to soil degradation, and healthy soil is vital to the health of plants, animals and humans.

Topsoil, the thin layer of soil that is below our feet, is crucial for our future. It has taken thousands of years to create this, and now we need to sustain it and regenerate it. Agriculture, deforestation and other factors have degraded and eroded our topsoil in an alarming manner, and we are quickly losing agricultural land. However we can restore topsoil's fertility by adding HUMUS ... this is the glue that holds soil together and which stabilizes organic matter. Chemical fertilizers reduce humus (however may be necessary) and biological fertilizers increase humus.

We are losing one acre of topsoil per second, and the UN estimates that we could lose it all in the next 60 years. Now, 52% of agricultural land worldwide is already degraded, and by 2045, with the population of the world expected to reach 9.3 billion, we could have extreme food shortages. As well as this, many physical and mental health issues would increase, and around one billion people could be forced to migrate to other places by 2050.

In order to have healthy soil, organic matter needs to be present, for nutrients to be passed on to plants. Hence is of crucial importance that all the world's people act towards the wellbeing of our planet and to redeem the 52% of the earth's soils that have been degraded.

Our food and our health depends on plants and animals, and their health is dependent on topsoil, which needs to be organic and healthy. Hence action to save our soil for us, for our children, for our grandchildren and for unborn children, is immediately important. Citizen awareness, participation and action is needed to increase the organic matter in soil up to 3%-6%. With less than this, the nutritional value of the soil decreases. Almost every environmental-related pain-point can be addressed by creating healthy soil so, if we fix our soil, we can fix the basis of clean air and pure water, and hence have the best chance of fixing all of the environment.

When ecological issues become election issues, governments all over the world can create permanent policies and set budgets for ecological solutions. Degradation, especially of agricultural soils, could be categorized and soils then could be begun to be revitalized with incentives such as financial support. Produce could then be labelled with the origin soil content.

This can lead to sustained implementation and good lives for our human race....Lets make it happen! For more information go to the global movement on...

By Maureen M Vance

<https://internationaleventday.com/event/world-bee-day/>

Honey Bee Facts

- Worker bees produce about 1/12th of a teaspoon of honey in their lifetime.
- Bees have been producing honey for at least 150 million years.
- On one flight from the hive to collect honey, a honey bee will visit between 50 and 100 flowers.
- A bee must visit about 4 million flowers to produce 1kg of honey.
- Bees use their antennae to smell. They can detect nectar 2 km away.
- The honey bee is the only insect which produces food eaten by humans.
- A honey bee flies at approximately 24 kph.
- The honey bee beats its wings 11,400 times per minute, which is how they make their buzzing sound.

Thursdays for us older folk!

Here is the plan for the next month and watch for the return of STRONGER FOR LONGER exercise sessions! Coming soon!

- 19th May 10 am Soup making in St Columba Hall
- 26th May 1 pm Woodbury for afternoon tea. Book at Heartlands 685 8496
- 2nd June 1pm or whatever is needed to get there on time - Movie in Timaru 
- 9th June Afternoon tea and movie at someone's home! Get info when you book!

Trialling a weekly 'visiting' trip from Fairlie to Timaru! 685 8496

Is there any interest in taking the (new!) Fairlie Community Car to Timaru, one afternoon each week, to allow for visiting folks in Timaru, in 'care' or in hospital, perhaps a little shopping and home again?

Say depart at 1 pm for 2 pm visiting and returning about 4 pm! The \$50 cost would be divided up between those travelling and all aspects of the trip would be pretty negotiable with the driver.

Contact Anne if you think you may use this service thanks.

FAIRLIE HERITAGE MUSEUM

Thanks to all those who have volunteered at the museum and can no longer do so. We are now in need of new people to help show visitors through the Motor Heritage Building. This is on a roster system, so whatever suits you. Please contact Paul Gallagher 027 685 4809.

Our Community

The Night Sky in June 2022

Sirius is the 'evening star'. At the beginning of the month it appears due west at dusk and sets in the southwest before 10 pm. By the end of June it sets at 8 pm. Being bright and white, Sirius twinkles with all colours when low in the sky. Canopus, the second brightest star, is higher in the southwest sky, swinging lower in the south later.

The Southern Cross is south of the overhead. Beside it, and brighter, are Beta and Alpha Centauri, often called 'The Pointers' because they point at Crux. Alpha Centauri is the closest naked-eye star.

Antares is a medium-bright orange star midway up the eastern sky. It marks heart of Scorpius. Below the scorpion is Sagittarius, its brighter stars making 'the tea-pot'.

Arcturus is a lone bright orange star in the north sky. Lacking any blue light it twinkles red and green when low in the sky. It sets in the northwest in the morning hours.

The Milky Way is brightest and broadest around Scorpius and Sagittarius. It remains bright but narrower through Crux and Carina then fades in the western sky. A scan along the Milky Way with binoculars finds many clusters of stars and some glowing gas clouds. Relatively nearby dark clouds of dust and gas dim the light of distant stars in the Milky Way. The dust clouds look like holes and slots in the Milky Way.

The Clouds of Magellan, in the lower southern sky, are luminous patches easily seen by eye in a dark sky. They are two small galaxies, close by as galaxies go.

All the naked-eye planets are in the late evening to dawn half of the sky. Saturn is first up. It rises around 11 pm at the beginning of the month and 9 pm by the end. It looks like a cream-coloured star and doesn't twinkle much. It is the brightest object in an empty region of sky. The Moon will be near Saturn on the night of the 18th-19th.

Jupiter rises around 2 a.m. at the beginning of the month and around midnight at the end. It is golden-coloured and the brightest 'star' in the morning sky till Venus appears. Jupiter doesn't twinkle at all. Mars appears just below Jupiter at the start of June. It looks like a medium-bright orange-red star.

Jupiter continues moving up the sky, morning to morning, leaving Mars behind. The Moon will be near Jupiter on the morning of the 22nd and very close to Mars on the 23rd.

Venus is the brilliant 'morning star'. It rises around 4:30 at the beginning of the month and around 5:30 at the end. It is leaving us behind and moving to the far side of the Sun. Mercury begins a morning sky appearance in the second week of June when it appears below and right of Venus. It keeps that position for a fortnight then slips down into the dawn twilight by the end of the month.

Venus is directly above the Matariki/Pleiades star cluster on the morning of the 15th, about when Matariki can be first seen. The cluster is 12° below Venus, roughly half a hand-span at arm's length. Mercury is closer and at an angle of 2 o'clock from the cluster. By the 27th Venus is 7° to the right of Matariki. The thin crescent Moon will be just above Matariki on the 26th.

An evening sky star chart is at <https://www.rasnz.org.nz/in-the-sky/the-evening-sky/sky-es2206>

A morning sky chart for Matariki is at <https://www.rasnz.org.nz/news-item/matariki-finder-2022>

Notes by Alan Gilmore, University of Canterbury Mt John Observatory and the Aoraki Mackenzie Dark Sky Reserve.

Eulogy - John Campbell

One of Fairlie's visionaries and a tireless community worker died at home recently, one day after his 82nd birthday.

John Campbell will be remembered for his contribution to music in the Mackenzie.

He was a church organist for over 40 years, playing for weddings and funerals as well as for church services and Masonic Lodge functions. He also was a singer, belonging to church, community and Masonic choirs and taking solo parts in many locally produced musicals.

He will best be remembered for his service to the Mackenzie Highland Pipe Band. John held the band together for many years when the number of pipers dropped. His service to the community stood out with his attendance at ANZAC Services, Christmas and New Year Parades, A & P Shows and many other community events. Few people know that for 35 years, John devoted his Friday afternoons to teaching piping to school children for no payment.

John served three terms on the Mackenzie District Council. He was also the first chairman of a committee planning the proposed Fairlie Community Complex. John's vision was often criticized by conservative councillors as "grandiose". The present complex is testimony to his vision and perseverance. He also visited most farms and businesses in and around Fairlie securing donations and loans to finance the project.

John was awarded the QSM in 2013 for his service to the community. The award was thoroughly deserved. He was whole-hearted with the many organisations that he was associated with, taking office in many of them and serving on committees, attending working bees, etc.

John's farming career led to his strong interest in all forms of agricultural work. He raised sheep, cattle and deer, grew various crops and ran a contracting operation. He was awarded a Kellogg's Scholarship in 1983. He also served on the Aoraki Polytechnic Council for 3 years. John is "survived by his wife, Julie, daughter Michelle, son Robert and 3 grandchildren.

Allan Kerr

Julie and family would like to sincerely thank the following on the occasion of John's passing - St John, Lewis Arundell, Mackenzie Pipe Band (especially Anne), Fairlie Bowling Club, A&P Society, Masonic Lodge, Allan Kerr, Michael Kerr, the Heartlands Fairlie Resource Centre and the Fairlie Angels. To all who sent tributes and expressions of sympathy, and to those who visited John during the past two years or sent floral tributes - we are deeply grateful. A special thanks to the ladies on the afternoon tea "shift on the day of John's farewell. It was 'yummy' and thoughtful. We were blessed with beautiful weather on the day, in a season John loved, and in a home and garden he built.

Birthdays:

18 May Mike Hubbard

19 May Craig Divers

21 May Margaret Thomas

22 May Fiona Dobson

23 May Molli O'Neill - 18th

29 May Sharryn Reid

Mae Jones

The family of Mae Jones wish to thank all those from the Fairlie community who supported Mae through her recent illness - especially Dr Lewis Arundell, the team at the Medical Centre and the Fairlie Angels. Thank you also to everyone who sent messages, flowers and food following Mae's passing. Thanks also to the Fairlie Golf Club and the golf ladies.

Braddick, Victor Robert (Vic)

Ann, Paul, David, Philip and their families would like to express a huge thank you to everyone for their kind thoughts, in the way of cards, flowers, plants, baking, meals, phone calls, visits and support following Vic's sad passing.

Special thanks to the care given by the staff at Elloughton Gardens to Vic and their continued care for Ann. Thank you to Michael Kerr for taking Vic's service and the ladies for the delicious afternoon tea. To the team at Aoraki Funeral Services, you went above and beyond and made a difficult time easier. Please accept this as our personal acknowledgement.

Community Lunches

Fairlie is fortunate to have Community Lunches for those who are just not up to cooking for themselves. These are home delivered meals prepared and delivered by volunteers. This service began when Moreh closed mid last year. It is just about a year since these meals started and over that time so many people have helped out. To you all, our sincere thanks and we really appreciate all that you do to help us care for our beloved older folk. If you find yourself going through a rough patch and are in need of either our fresh lunches or frozen ones, please get in touch with Anne Thomson 685 8496 and she will help you sort something out.

Our Community

Mackenzie Young Farmers Club

- has had a steady stream of events over the last month.

Our April meeting took place at the Gladstone Hotel. We had a fantastic turnout of 18 current members and 4 keen new members. We are so pleased with the amount of interest we are having as of late, and look forward to welcoming any new people who are keen to get involved.

The end of April saw two of our members compete at the South Aorangi District Boot Challenge hosted by the Upper Waitaki Young Farmers Club. The challenge was a clay bird shoot. Unfortunately we were not able to retain the "boot" at trap shooting, which we were the previous holders of. The boot was won by Upper Waitaki YF.

The next day we had a dedicated group of members meet for a day of wood splitting. The executive committee put on a BBQ lunch and refreshments which was much appreciated. The day concluded with our monthly meeting.

We have a lot of exciting activities planned for the next few months including a club farm discussion group and a trip to the West Coast.

Our next meeting will take place on Monday 30th May at the Silverstream Hotel, Kimbell. If you're keen to meet some like minded individuals over a meal and a few drinks, then come along. Meeting from 7 pm.

mackenziecommunityfairlie@gmail.com

"Think Globally, Act Locally"

The phrase is, according to Wikipedia, attributed to a Scottish botanist, sociologist and town planner, Patrick Geddes, in 1915. Often used when people are talking about environmental issues, it could also help our emotional wellbeing during any upsetting global event. For example, the price of fuel now may force us to use our cars less ... all the better to lessen the world's reliance on Russian fossil fuel. It's a double whammy positive, for the environment and as a protest of war ... take that Vlad the Bad!

Ten people attended the recent trapping workshop, held by Tim Exton, DOC Ranger, Predator Free NZ 2050. We learnt about the habits and home ranges of mustelids, rats, possums and hedgehogs and the most effective trapping techniques.

Rats only have a range of about 50 square metres, so imagine if everyone in Fairlie had a tunnel trap in their backyard, we could realistically make that 2050 target! It's that same principle of thinking big, not letting that daunt us and acting within our own small space. Think globally, act locally.

We could have tuis in the Fairlie Basin, by planting more natives and banging the head of a rat or two! Please join us for a planting day on the Opihi River, details are available from Heartlands Fairlie Resource Centre.

Backing your Trailer – with Lisa North

Please contact Lisa if you would like to learn to back your trailer or whatever! You can contact her at Heartlands and make a time 685 8496

Our Mackenzie

Property Valuer Now Based in the Mackenzie

Mackenzie's only resident property valuer, Michelle Ward, is a Registered Valuer with urban and rural valuation experience based in Twizel. Michelle specialises in the valuation of residential and lifestyle properties in the Mackenzie District and South Canterbury, including Fairlie and Lake Tekapo. She is passionate about providing excellent customer service and building client relationships.

Michelle's valuation work over the years has included urban and rural valuation assignments for corporate clients and individuals around the South Island and also some parts of the North Island. An opportunity to join Valuation Partners was presented in 2020.

Valuation Partners began operating in Christchurch in 2015 and was created to offer a fresh approach to valuation services. It was believed there was room in the market for a new, dynamic, and efficient professional service provider that delivered top quality valuation reports across a wide range of property types. A company that focuses on people, not just bricks and mortar and on building partnerships, not just profit. Valuation Partners has valuers operating in Christchurch, Timaru, the Mackenzie, and Queenstown Lakes District.

The team at Valuation Partners provide a variety of valuation services across the residential, lifestyle, rural, commercial, and industrial sectors. Properties are valued for a variety of purposes including pre-purchase, finance, construction, insurance, compensation, matrimonial, subdivision, estate planning, transfer to trust, and litigation.

The valuation process and what adds value?

When we come to your property, we consider what gives your property value and how that relates to properties that have sold in the locality. Construction costs are also considered when determining value, particularly for new builds, but recent sales and market information are key to the valuation assessment.

Initially we inspect and measure any of your buildings – home, garage, and other sheds. The floor area and quality of your home have a large impact on the value of your property. We take careful note of the standard of the fittings in your home, for instance, your benchtops and appliances in your kitchen. The floor plan is also important – does your home have much wasted space, is there good indoor/outdoor flow? Additional bathrooms and toilets, such as ensuite bathrooms add value.

The standard of chattels, such as floor coverings (carpet, vinyl etc), window furnishings, and light fittings all impact on the value of your home.

M: 027 432 9015 T: 03 974 1320
W: valuationpartners.co.nz

Queenstown Christchurch Timaru

Interior decoration is also considered. The exterior cladding, condition, and presentation of your home is very important – is your home a new build, if not, has it been well maintained over the years? Landscaping, section/site, orientation towards the sun, and location also have a large impact on value.

If you are considering renovations, additions, or a new build these are all major decisions. A valuer can advise on the likely added value to your property and assist with decision making around renovation and building, budgets, and plans.

Please feel free to contact Michelle for any valuation advice in the Mackenzie District, including Fairlie, Tekapo, Twizel, Omarama and Ōhau.

Meeting People in our Community ...

Meet James and Tomoyo and their daughter Grace.

Where were you both born?

James: I was born in Taiwan and Tomoyo is from Japan. We both love New Zealand and hope to live here forever.

Tell us about your journey to living in Lake Tekapo?

Tomoyo: My mother loved Lord of The Rings and she dreamt of travelling to New Zealand. When I was deciding where to travel overseas, New Zealand was my first choice.

James When I was a child, I longed to live somewhere else and I loved learning the English language at school. I completed an Industrial Engineering Management Degree in Taiwan. After working in that field for a short time, I decided that I am much happier talking to people, not machines! I booked a flight to NZ with a dream of going skydiving in Wanaka. On the way to Wanaka, my new friends and I spent Christmas in Tekapo. It was very special. We went swimming in the lake and I went to the Christmas service at The Church of The Good Shepherd. This short stopover had a huge impact on me. I dropped off my CV to a few businesses and prayed to God to guide me towards living here. Two weeks later, Wilma phoned me and offered me a job at her Backpackers. I met Tomoyo (my now wife) while working at Aotea Gifts.

What work do you do?

James: Currently, I am a Property Manager for a Holiday Home business. Tomoya: I work part time at Aotea Gifts.

When you are not working, what do you like to do?

James: We enjoy family time - Simple things like walking to the playground with Grace. I also like photography, especially capturing the seasonal changes in our beautiful landscape. I am fascinated by different cultures. Grace speaks 3 languages. We enjoy going to festivals in other small towns like the Salmon and Wine Festival in Twizel and The Victorian Fete in Oamaru.

Tomoyo. I enjoy gardening. I grow roses, vegetables and berries. Grace loves strawberries.

What do you love about living in Lake Tekapo?

James I feel peaceful here. I love small towns and the rich community focus that the people have.

Tomoyo Everyone is so kind here and very accepting of Asian cultures. I love the beautiful stars, the clear skies. I truly believe that my Mother (in heaven) is with me here.

Lake Tekapo School

I enjoyed meeting Lake Tekapo School Principal, Simon Waymouth recently. To describe him as passionate about teaching and living in our community, would be an understatement. Simon moved here 9 years ago after being offered a 1 year contract at our school. He quickly grew to love our community and embrace all the joys of leading a small and very special school.

Simon is extremely proud of the 'unique-to-Tekapo' values and vibrancy he and his team have implemented throughout the school. We talked about all the exciting ideas he has for Tekapo School and what a privilege it is to teach our children. He also reflected on the challenges of the past two years.

His letter to our community follows.

Julie - Mackenzie Community Development, Lake Tekapo

"When I was asked to write a piece for the Accessible my gut turned to a piece of writing that was published earlier in the year by the Reverend Andrew McDonald on leaving both Lake Tekapo and Fairlie. This article hit me hard in both its raw honesty and genuine reflection and it made me as Principal at Lake Tekapo School, sit up and take notice.

The sincerity and integrity of Andrew's thinking captured my own thoughts at the time, and while we are very different people, it shook me as it came out of the blue. I knew Andrew as the Minister of the Good Shepherd Church, as a passionate green thumb, but also as a colleague.

In the early days I had the opportunity to meet with Andrew after each school term for a "quiet", where we discussed different community concerns and put our worlds to right. Sadly with the emergence of COVID 19, this valuable connection became less and the conversations and termly reflections stopped. I enjoyed my time with Andrew and it was for this reason I was both saddened, but happy that Andrew held true.

It is with this background when Julie asked me to write a piece for the Accessible, I considered the tone of my writing. I certainly don't want to come across as flippant or on the other hand, as a know it all, but my gut feeling when asked, was to immediately look ahead to a time where hopefully we can get back to some kind of normal, and to a time where the focus lies with the many positive and good things about our small community.

Lake Tekapo School benefits greatly from this and one of it's great dilemmas, even with the challenging last 2 years, is in the reciprocation of the goodwill that is demonstrated to us on a daily basis. COVID 19 from a school's perspective has brought with it huge challenges, but the overwhelming feeling as we move forward is the genuine appreciation and value we as a small school feel towards our locals, our local businesses and to the many community groups that are striving to make Lake Tekapo an even better place to live.

Fairlie Accessible Issue 22-10

Multicultural Aoraki in Mackenzie

Monday 23 May 10 am-1 pm

or later by appointment 03 687 7332 / 027 687 7335

Our whole team will be out and about meeting the community of Fairlie on their way through to Lake Tekapo next Monday, so please stop us and say hi or call into the St Columba Church Hall for a cuppa and learn more about our services.

The Aoraki region is home to people from a diverse range of cultures and backgrounds and this is what makes it such a wonderful place to live. We, as Multicultural Aoraki, aim to promote a thriving multicultural community, united through support, connection and celebration and we would love your input into this.

We are hosting a pot luck tea in Tekapo in the evening which everyone is welcome to. We hope to organise something similar in Fairlie in the near future.

Look forward to meeting you,
The Multicultural Aoraki Team

All Welcome
(Bring a small plate of food sharing)
Community Development Tekapo - Julie - 0211594137
Multicultural Aoraki - 03 6877332/0276877335

The disclaimer for me however lies in my inability to thank publicly or name directly the many contributors to our school. This would be incorrect in doing so. Thank you to the Lake Tekapo community and local business providers for continuing to support our children through what has been an exceptionally trying time for our small town. In returning to Andrew's reflections, Lake Tekapo School is not just a job or a workplace, but a community of very diverse people that help to shape the future we want for our tamariki. Our children are very lucky."

I am excited to introduce you to our new family business and give you a bit of background of who we are and what we hope to achieve.

For those of you who don't know our history, Stephen and I moved to the Mackenzie from Whangarei in 1997 when Stephen secured the role of Electronics Technician at Mt. John Observatory. We spent 19 happy years raising our four children here and immersing ourselves in the local community.

In 2016, at the end of my second term as Mayor, we felt it was the right time to do something different and head to Wellington to experience city living for a few years. We both secured great jobs and managed to squeeze in plenty of wining, dining and cultural experiences in the following five years.

Fast-forward to mid-2021 and we were feeling it was time to head home to spend more time with our family and friends. Stephen secured a role at Timaru District Council in November, and we made our final move on 5 December – the same day that our newest grandchild was making her way into the world, in Timaru. Perfect timing!

Prior to our move back we had both decided that this time, we would like to invest in a business, so we looked at various options and finally settled on creating our own company.

TopTech Solutions is an electrical and technology solutions provider, servicing the Mackenzie and wider South Canterbury region. Our goal is to make it easy for people to spend more time enjoying the advantages of using modern technology and less time trying to figure out what they need and how to install and use it.

Our key asset is our son, Ben, a qualified electrician who has spent the last 11+ years working in and around this district so he will be well-known to many of you. Ben (like his dad) has a passion for technology and solving problems so we felt that his expertise and our desire to start a business would be a great fit. He started working for TopTech in April and is relishing the challenge of being involved in a start-up.

While TopTech Solutions can provide all of your regular electrical services,

Jeff Duffell

Mackenzie Test & Tag

Jeff Duffell was born in Timaru, raised at Burkes Pass and went to Fairlie Primary School. Last year Jeff and Charmaine moved back to Fairlie to enjoy the lifestyle the Mackenzie offers and to be close to family. They have 2 adult children, one which lives at Tekapo and one in Australia. Jeff likes to hunt and fish so living here gives great access to these activities. Jeff has electrical registration and has 25 years appliance servicing experience - an alarm technician for 10 years and has spent 14 years as a production manager for an engineering company. He is qualified to Test & Tag and is looking forward to servicing the area with his new small business - Mackenzie Test & Tag.

MATARIKI

Matariki signals the Māori New Year. It is a time of renewal and celebration in New Zealand that begins with the rising of the Matariki star cluster.

The two meanings of Matariki both refer to stars: mata ariki (eyes of god) and mata riki (little eyes). Traditionally, festivities were conducted to celebrate Matariki. They followed the harvesting of crops. Festivities included the lighting of ritual fires, the making of offerings, and celebrations of various kinds to farewell the dead, to honour ancestors, and to celebrate life.

In 2022 Matariki will be celebrated on its first national public holiday - 24th June 2022. Celebrate Matariki in your own yard! Solar "Light up a Tree" for Matariki.

Supported by Mackenzie District Council and Mayors Taskforce for Jobs

Mackenzie Businesses to the fore!

Ara Institute of Canterbury is immensely pleased to be premier sponsor for the Business Excellence Awards 2022 and to be part of an uplifting local event which celebrates stand-out businesses and leaders in South Canterbury. The Mackenzie is well represented at these awards - awards made popular locally by the inclusion and selection of Fairlie's Fairlie Bakehouse as a top business time and again.

SMALL BUSINESS CATEGORY:

Blank Space, a popular clothing outlet on Fairlie's Main Street

Burkes Brewing Co, a boutique brewery based at the Blue Lake Eatery and Bar in Lake Tekapo

MenardsNZ, beautiful ecosanctuary accommodation, 17km from Twizel

Petronella's Bookstore, a joy to visit in Lake Tekapo

MEDIUM BUSINESS CATEGORY:

Blue Lake Eatery & Bar, offers contemporary local NZ cuisine in their restaurant in Lake Tekapo

Glentanner High Country Heli Hike is an amazing experience of heli flight and walking a trail of High Country history

LARGE BUSINESS

Hermitage Hotel, situated in the picturesque Mt Cook Village
